Module Offering(s)

Start Month	Duration
September	28 Weeks

Aims and Outcomes

Aims	The Recording Studio Producer module aims to allow students to develop professional-level conceptual and studio-based production skills through collaborating with performers, writers, arrangers, programmers, sound engineers and other practitioners. It provides opportunity for experimentation, creative problem solving and the setting and attaining of
-------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

relevant goals. The module provides students with the support, facilities and opportunities to identify and develop creative potential in incipient musical works to realise this potential with regard to potential markets.

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Realise multi-track musical recordings, mixes and masters to professional standards demonstrating a systematic understanding of appropriate studio skills and production techniques.
MLO2	Collate evidence of studio-based recording, mixing and mastering, document feedback and review and revise actions on an ongoing basis.

Module Content

Outline Syllabus

Building on prior study, students will be supported in the year-long development of a portfolio of studio-based productions, mixes and mastered audio. Work will be supported by seminars and one-to-one tutorials discussing specific techniques and offering feedback and advice.

Module Overview

The Recording Studio Producer module encourages learners to create music in the recording studio at a professional level by developing a portfolio throughout the year to explore the roles of studio-based producer, mixing engineer, and mastering engineer as evidenced in industry.
