programmers, sound engineers and other practitioners. It provides an opportunity for experimentation, creative problem solving and the setting and attaining of relevant goals. The module provides students with the support, facilities and opportunities to identify and develop creative potential in incipient musical works to realise this potential with regard to potential markets.

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Initiate and produce recordings of songs, compositions and other musical creations to professional standards demonstrating a systematic understanding of appropriate musical skills and production techniques.
MLO2	Collate evidence of music production activity, document feedback and review and revise actions on an ongoing basis.

Module Content

Outline Syllabus

Through the creation of a year-long portfolio, this module allows the student to develop to a professional level as an individual producer and to identify and establish production activities and projects focused on a potential career.

The emphasis is firmly on self-directed learning and students are required to initiate a range of production activities based on their personal strengths and career aspirations. Seminars support work and propose relevant topics and approaches.

Module Overview

The Producer module encourages learners to create music at a professional level and encounter the role of record producer as evidenced in industry. A portfolio is developed throughout the year and collaborations with performers, engineers, arrangers and programmers are highlighted.
