

Cost Of Attendance – 2025/2026

The Cost of Attendance is calculated annually by LIPA's International Team.

It is the approximate all-inclusive cost of one year's study at LIPA. Although provisional LIPA will only amend the COA under exceptional circumstances. Students should be aware that there are strict US Department regulations with regards to the disbursement of loan funds to students.

The tables below show the highest loan limit amounts that we are authorised to certify for new and returning students for the 2025/26 academic year under US Government Regulations. Students and parents are encouraged to carry out an individual budgeting analysis to assess their personal loan needs – you may find you would like to request a lesser loan amount. The exchange rate used is £1 GBP = \$1.28 USD in accordance with the historical average April 2024 – March 2025 using: www.ofx.com

Please note that loans are disbursed to parents and to students using the exchange rate on the day of transaction and may vary from the average rate detailed above and below.

NEW UNDERGRADUATE STUDENTS STARTING A COURSE IN 2025/26

Course	Course Code	
BA (Hons) Acting	33333
