

Module Specification

Summary Information

Module Code	5603FACT
Formal Module Title	Location Filming and Sound
Career	Undergraduate
Credits	15
Academic level	FHEQ Level 5
Module Pass Mark	40

Learning Methods

Learning Method Type	Hours
Workshop	40

Module Offering(s)

Start Month	Duration
September	28 weeks

Aims and Outcomes

Aims	The aim of this module is to develop camera, sound and post-production techniques in location filming situations and complement studio-based work. The module will also consider visual narratives and presentation of character.
-------------	---

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Apply camera and microphone techniques in a location environment.
MLO2	Operate the core equipment components of location and OB units and demonstrate an understanding of the processes of which they are part.
MLO3	Analyse TV and film creation on location, the processes of capturing sound and vision and visual construction with reference to appropriate theory and known examples of location film or television.

Module Content

Outline Syllabus

The module will look at the technical needs of location filming and the different technical solutions available to practitioners. The key principles of light, sound and image capture will be examined. Analysis of the way in which visual and audio technique impact on an audience's experience of a story will be undertaken. A number of narrative strategies and the cultural significance of story will be examined.

Module Overview

Students will develop and produce a short film, starting with a script breakdown and location scouting before moving into casting and budgeting. Students will shoot and edit a short film as well as producing a behind the scenes reel with contributions from cast and crew to produce an EPK to help promote and contextualise the film.
